- Blue --->
- Green --->
- Yellow --->

Connect to colour indicated

Labelled 'Main Batt+'

Labelled 'Sec Batt+'

+12V

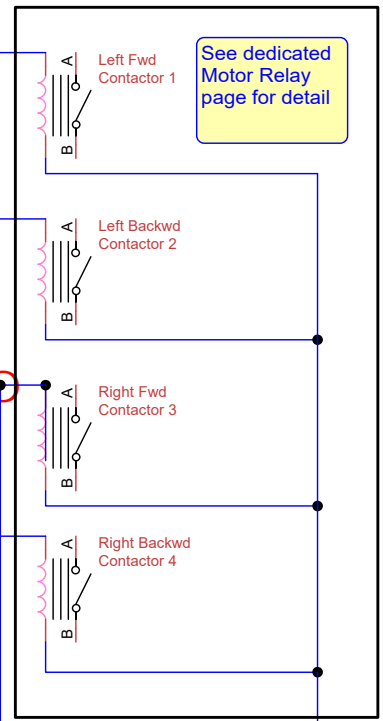

Optional secondary battery (7Ah gel cell). Charged when remote control is not in use.

Connections into the existing ewiks wiring when no connector block exists are ringed in RED. No wires should be cut. Piggy-back connections onto relay's spade lugs are often the easiest option

Connector strip for incoming cable from hand held switch panel. Easiest to connect Remote Control here.

ewiks 7.5A Fuse

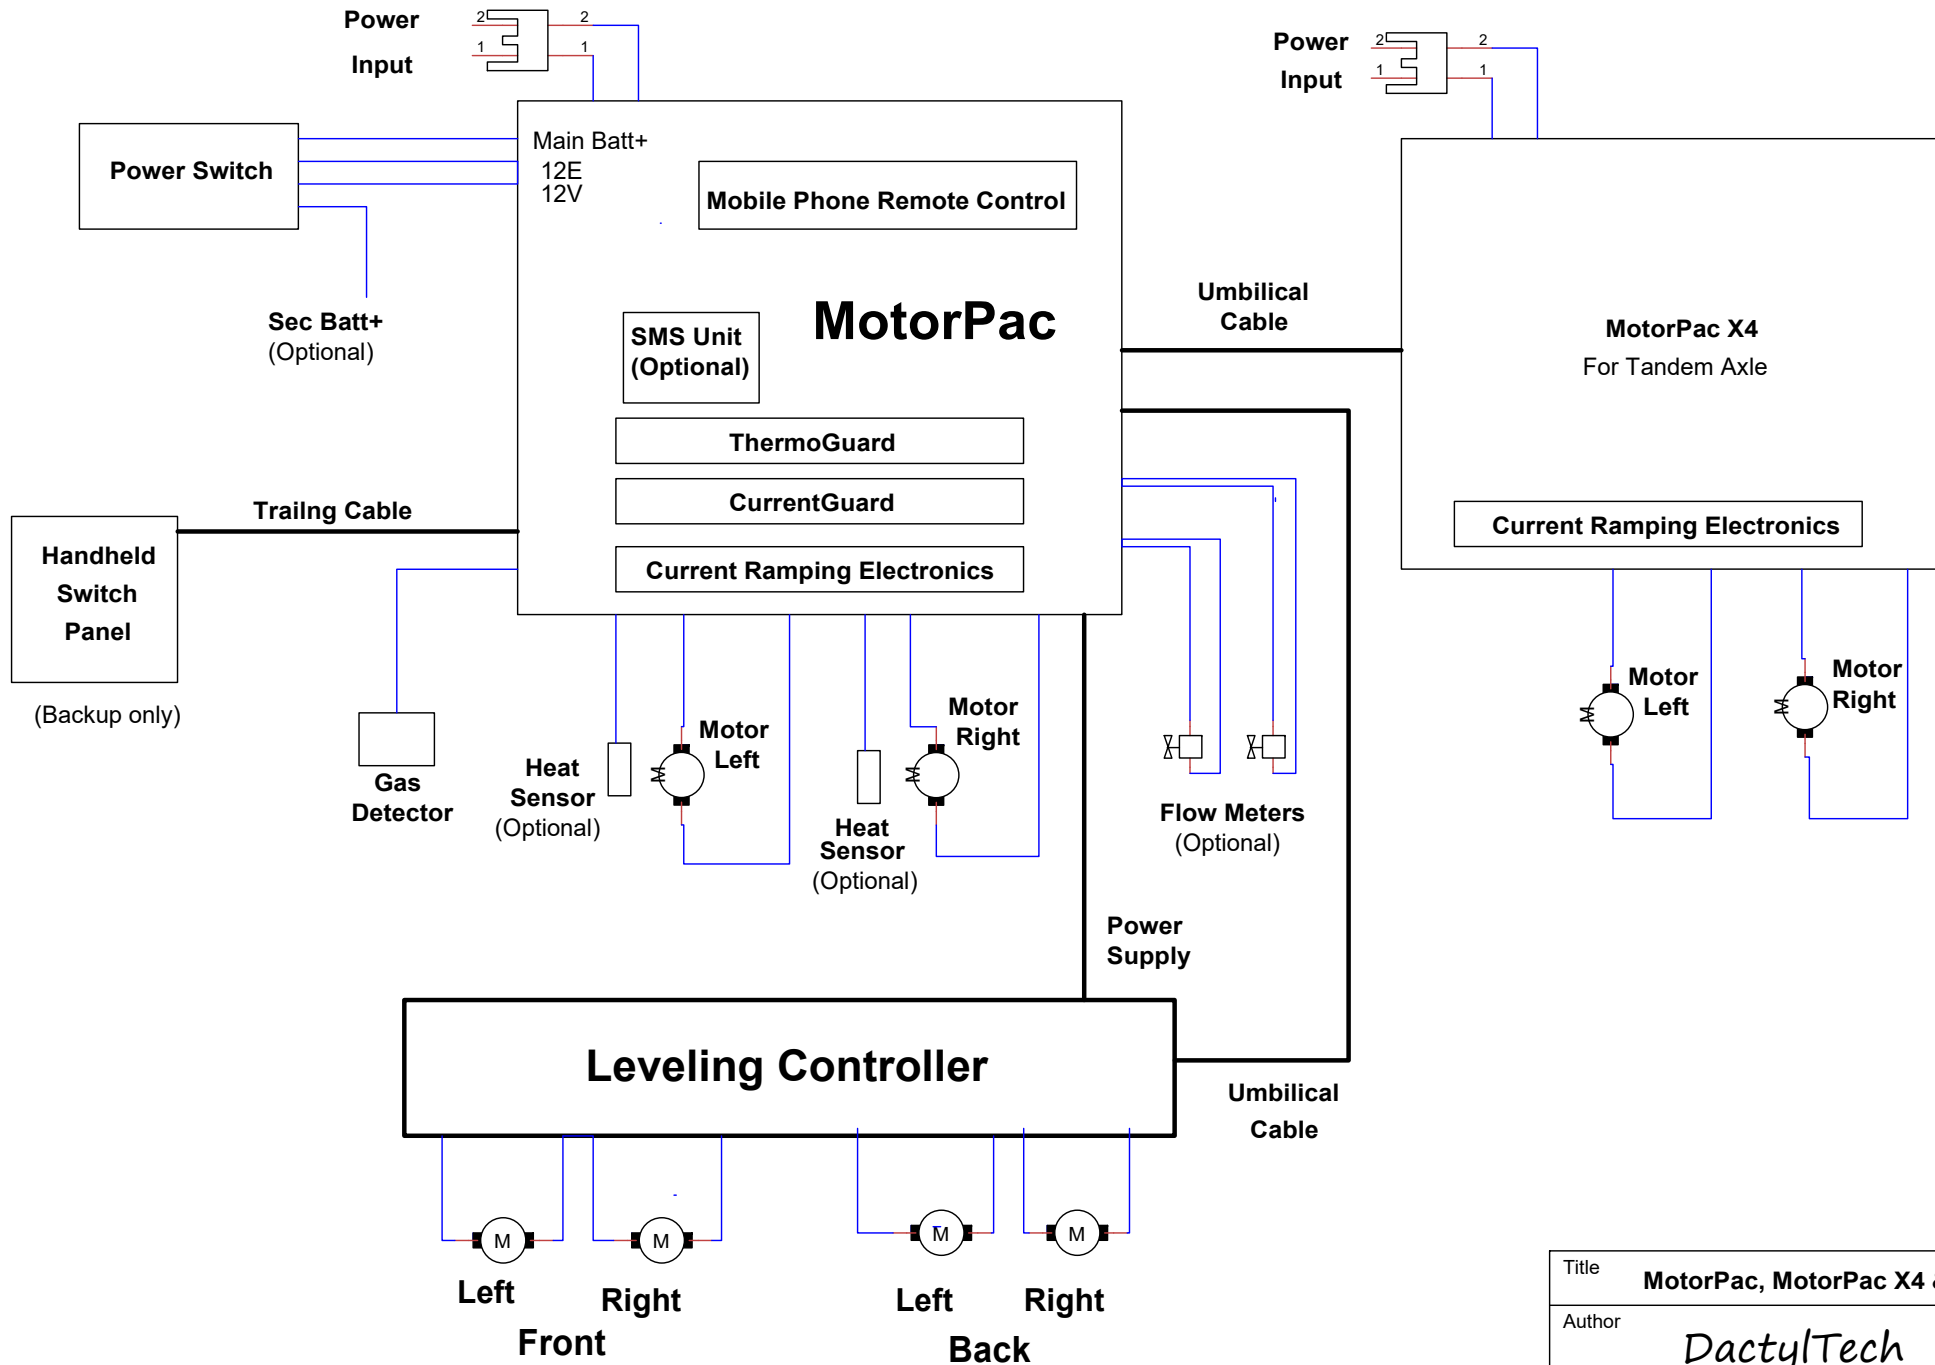

Caravan's main battery and/or ewiks motor power source.

See dedicated Motor Relay page for detail

Main battery negative terminal (or vehicle chassis).
